## **About Helios Towers**

- Helios Towers is a leading independent telecommunications infrastructure company, having established one of the most extensive tower portfolios across Africa and the Middle East. It builds, owns and operates telecom passive infrastructure, providing services to mobile network operators.
- Helios Towers owns and operates over 13,600 telecommunication tower sites in Tanzania, Democratic Republic of Congo, Congo Brazzaville, Ghana, South Africa, Senegal, Malawi, Madagascar and Oman.
- Helios Towers pioneered the model in Africa of buying towers that were held by single operators and providing services utilising the tower infrastructure to the seller and other operators. This allows wireless operators to outsource non-core tower-related activities, enabling them to focus their capital and managerial resources on providing higher quality services more cost-effectively.

## **Upcoming Conferences and Events**

Helios Towers management is expected to participate in the upcoming conferences outlined below:

- BofA European Telecoms Field Trip Fireside Chat (virtual) – 19 September 2023
- JP Morgan Emerging Markets Credit Conference (London) – 21 September 2023
- RBC Capital Markets Global Communications Infrastructure Conference (Chicago) – 27 to 28 September 2023
